Executive Summary

Associate with experience creating AI-powered applications including PDF-based RAG chatbots and AI knowledge base systems for support teams. Implemented features such as PDF upload, text chunking, vector embeddings, semantic search, document question answering, and REST API integrations using Python, FastAPI, LangChain, FAISS, Gemini API, and OpenAI API. Passionate about Generative AI, scalable backend systems, and AI/ML engineering.

Certifications

- Data Visualization with Python – Great Learning (2023)
- Power BI Job Simulation – PWC/Forage (2023)

Experience

Amazon

Hyderabad, India

Associate

May 2022 – Present

- Worked on AI-powered PDF-based RAG chatbots using Python, FastAPI, LangChain, FAISS, and Google Gemini API to enable contextual question answering from uploaded documents.
- Implemented document processing workflows including PDF upload, text extraction, text chunking, vector embeddings, and semantic search using FAISS.
- Integrated Gemini API for context-aware responses and developed REST APIs for document upload and chat interactions.
- Improved response relevance using Retrieval-Augmented Generation (RAG) techniques for conversational document querying.

Project: FastAPI PDF-based RAG Chatbot using Google Gemini API

Tech Stack: Python, FastAPI, LangChain, FAISS, Gemini API, NumPy, Pandas

Concepts: RAG, Vector Embeddings, Semantic Search, Prompt Engineering, Document Processing, REST API Development

- Developed a Retrieval-Augmented Generation (RAG) chatbot that allows users to upload PDF documents and ask contextual questions from the uploaded content.
- Implemented PDF upload and text extraction pipeline, followed by text chunking for efficient semantic retrieval.
- Generated embeddings and stored vectors using FAISS vector database for similarity-based context retrieval.
- Integrated Google Gemini API for context-aware question answering using retrieved document chunks.
- Developed REST APIs using FastAPI for document upload and chat interactions.
- Improved response relevance using RAG workflow and handled multiple user queries with conversational document interaction.

Project: AI Knowledge Base Chatbot for Support Teams

Tech Stack: Python, FastAPI, LangChain, FAISS, Gemini API

Concepts: RAG, Semantic Search, Document Question Answering, Prompt Engineering

- Developed a basic AI-powered knowledge base chatbot that allows support agents to ask questions from uploaded SOPs, policies, FAQs, and troubleshooting documents.
- Implemented document upload and text extraction workflow for PDF-based support documents.
- Used text chunking and vector embeddings with FAISS for semantic document retrieval.
- Integrated Google Gemini API to generate contextual answers based on retrieved company documents.
- Built REST APIs using FastAPI for document upload and chatbot interaction.
- Improved information search process by enabling quick access to support knowledge through natural language queries.
- Worked on basic prompt engineering and response testing to improve answer relevance.

Project: CAP

- Managed a high volume of client inquiries via tickets and emails, consistently providing timely, accurate, and empathetic responses to deliver seamless experiences.
- Collaborated with cross-functional teams to identify and escalate recurring issues, driving improvements in processes and policies.
- Contributed as a Subject Matter Expert (SME) by mentoring new hires, conducting training sessions, and guiding team members to ensure adherence to quality standards and best practices.

Technical Skills

Programming & Frameworks	Python
Database	SQL
APIs & Web Development	FastAPI, HTML, CSS
Tools & Platforms	Git, GitHub
Cloud	AWS
Libraries	NumPy, Pandas, Matplotlib, Scikit-learn (Basic)
AI & GenAI	LangChain, FAISS, Google Gemini API, RAG, Vector Embeddings, Prompt Engineering

Education

Master of Computer Applications (MCA)	Hyderabad, Telangana
Nanakram Bhagwan Das Science College	CGPA: 7.00
Bachelor of Science – Computer Science (BSc)	Hyderabad, Telangana
Nrupatunga Degree College	CGPA: 8.41
Intermediate – M.P.C	Hyderabad, Telangana
Nrupatunga Junior College	CGPA: 6.98
Secondary School (10th)	Hyderabad, Telangana
H.V.S Public School	CGPA: 6.66

Languages

English, Hindi, Telugu

Strengths

Hard working, Honesty, Focused, Dedication, Quick Learner, Adaptable and quick to learn new technologies

Interests

Playing Cricket | Listening to songs and watching motivational videos
